8 Days of All Inclusive Resort Stay in the Dominican Republic

Presented by: *International Escapes*

PARAISO DEL SOL RESORT. Here you'll luxuriate for 8 Days (7 Nights) of ALL INCLUSIVE resort/hotel living at the Paraiso Del Sol or other destination resorts in the Dominican Republic. So what is an "All Inclusive" resort anyway? It means that all your families Meals & National Drinks, Unlimited Activities, All water sports, and Freedom from Tipping is included in your stay.

So what's the resort like? The Paraiso Del Sol Resort has 300 rooms and is located 5 minutes from Cabarete, 20 minutes from Sosua and 30 minutes away from Puerto Plata's International Airport.

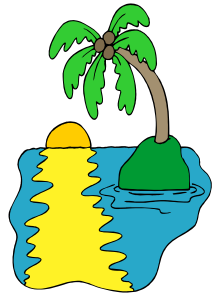

If your goal is to rest, nothing will top the resort's pool and exotic cocktails. If on the other hand, what you are looking for is all the action and rhythms of the islands.... their activities and sports program will offer you emotions and fun times to cherish forever! A special place where nature's treasures remain unspoiled and the simple joys of easy living are still easy to find. Relaxed by friendly smiles and crystal clear water and framed by endless sunsets is where you will find Paraiso Del Sol.

Here, in the heart of the Caribbean, you will discover more than 1,288 km of Coast line with the most beautiful beaches of the Caribbean in all different styles. White sandy beaches, clear, sparkling waters, diving attractions and unspoiled nature all around the island. It also has the claim to the oldest city in the New World, with its quaint cobble streets and stonework houses.

This beautiful island is steeped in history and culture worthwhile exploring: abundant historical sites, museums, colonial architecture, the first hospital, first sugar mill, first Catholic Church on this side of the world. Visitors will soon discover that the Dominican Republic offers much more than the typical Caribbean attractions of sun, sand and sea.

We recommend a daytrip to Samana and Cayo Levantado - the famous "Bacardi Island" with wonderful white beaches and clear snorkeling waters, where, during the winter, you can also study the Humpback Whales. Spend a morning at the beach and the afternoon shopping in Puerto Plata where you will find the amazing and unique blue amber from the north coast of the Dominican Republic. Visit the big Brugal Rum Distillery and don't forget to visit one of the local cigar manufacturers.

For city life and history take a trip to Santo Domingo, the capital on the south coast. Visit the old town from Christopher Columbus time and join a jeep safari for a real adventure deep into the jungle to visit the famous waterfalls.

Take a side trip to another country - Haiti, the other half of the island of Hispanolia. There you will meet a culture totally different from the Dominican Republic. To watch a voodoo show is a scary and somehow fascinating experience but not recommended for sensitive people.
